

# Olaf Update

Laugh a little, learn a little and take a break from the daily grind

Summer 2006

## Banking On Experience

"Build it right the first time, and word will get around." That was our motto back in 1913, and what we still live by today. Good project administration and quality management is very important to make sure that the job gets done to the highest standards. We make sure that everything is in check through all steps of the process, from preconstruction planning to occupancy. Here are just a few of the financial institutions for whom we've had the pleasure of working.

### Choice Financial

Olaf Anderson & Son Construction started foundations for Choice Financial this May. The new 12,000-square-foot branch, Choice Financial's first in Fargo, is scheduled for completion late this year.

### Bank of the West

Olaf Anderson & Son Construction is performing 15 ADA updates and numerous remodeling projects at regional Bank of the West locations. The latest ADA remodels require ramps for wheelchair customers and ADA-compliant door hardware upgrades.

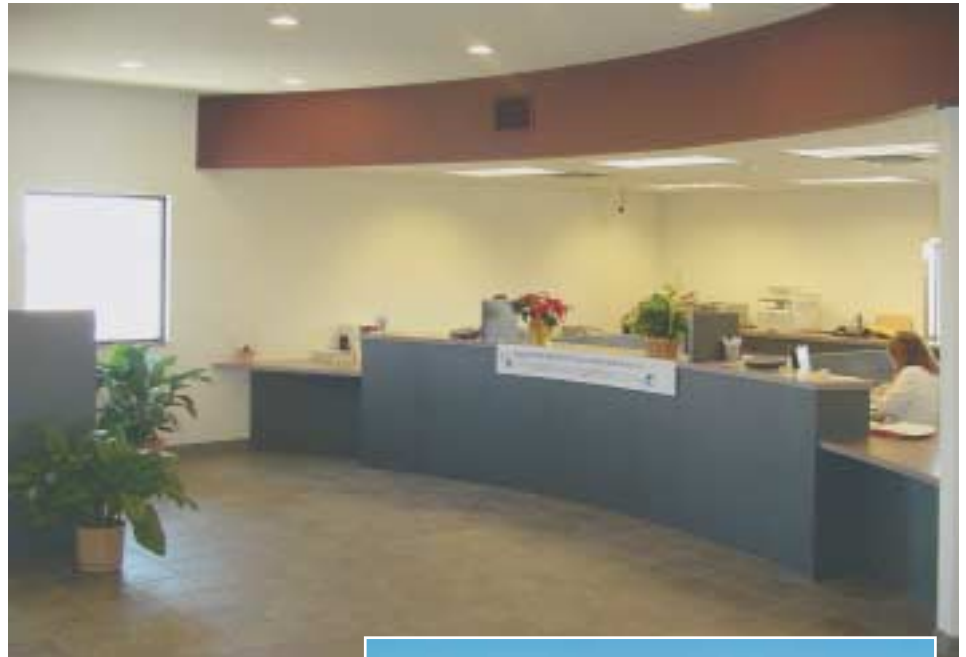

### Bremer Bank

This spring, Olaf Anderson & Son began an interesting remodeling project, converting a former A&W restaurant on 19th Avenue North in Fargo into a new Bremer Bank branch.

## Planning A Project?

### *Know someone who is?*

Olaf Anderson & Son can be a valuable resource during the planning stages. Call Jeff Furstenau today at 701-237-3605 to discuss where we can save time and money in a building project.

*Above: A radius teller line and soffit highlight the interior of the United Savings Credit Union's new Dilworth branch. At right: United Savings Credit Union opened its third location, in Dilworth, Minn., last fall. A mix of masonry and dryvit accent the exterior features.*

## A Strong Economy Yields Solid Growth In Local Financial Institutions

**U**nited Savings Credit Union recently teamed up with Olaf Anderson & Son Construction to build its third branch, located in Dilworth, Minn. Gloria Schmunk led the member-owned credit union through the design/build process. Working with Olaf Anderson & Son architects and estimating staff, the credit union found that design/build worked well to give them a functional and cost-efficient 2,300-square-foot facility in the short time required.
