

A view of the atrium at the newly renovated offices of Eide Bailly, LLP in Fargo, N.D.

Another Successful Project

Eide Bailly, LLP

Olaf Anderson & Son Construction was selected by Eide Bailly, LLP, a regional CPA firm, to remodel and renovate an existing 72,000-square-foot, two-story building. Construction began in late November and was completed in early May of this year, allowing Eide Bailly to relocate 250 employees from two separate locations.

Among the building's notable features are state-of-the-art conference rooms, large training rooms, multiple lounge areas and coffee bars, high-end reception desks on both floors and a grand atrium stairway.

Eide Bailly's tagline, "PEOPLE. PRINCIPLES. POSSIBILITIES." can be used to sum up the approach to this project. It took a team effort by Eide Bailly, architects R.L. Engbretson, and Olaf Anderson & Son and its subcontractors to handle the daily challenges and complete this project within the designated time frame.
