Winter 2017

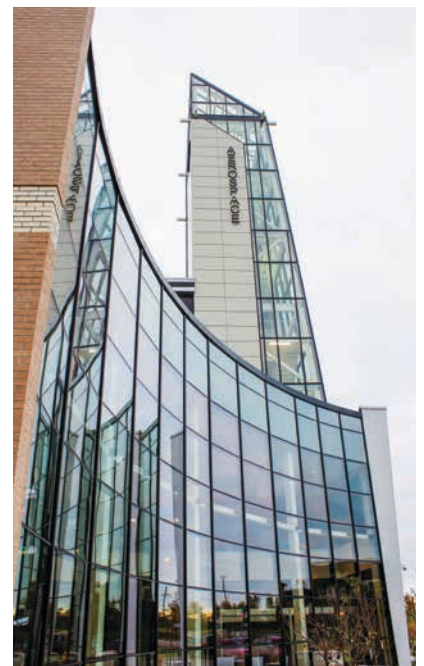

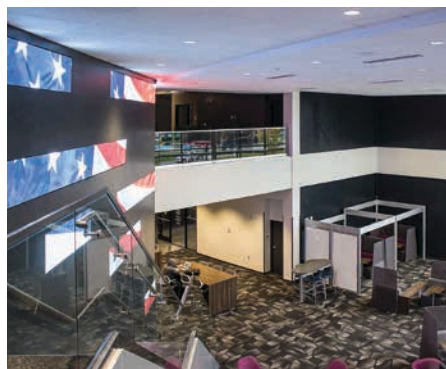

UND Robin Hall Complete

Robin Hall was dedicated in July of 2016 to a room filled with press, University officials, State and local dignitaries. It is home to the University of North Dakota's Unmanned Aircraft Systems Education and Research. UND's John D. Odegard School of Aerospace Sciences was the first to offer a bachelor's degree in unmanned aircraft systems studies.

The 66,000-square-foot facility designed by ICON Architectural Group, was privately funded and is managed by the Aerospace Foundation, a private sector support arm the UND Aerospace. Si and Betty Robin were lead benefactors and the namesake of Robin Hall.

The building has four floors with a basement and features a large auditorium, student study space, a retail 'Aerostop' store, legacy wall, classrooms, and a hangar space for use as a flight test lab, classrooms and administration offices.

 Ceco Building Systems

Olaf Anderson Construction again teamed with ICON Architectural Group to construct the Farmers Union Insurance Center, a 35,000-square-foot addition to the Scheels Arena in Fargo, North Dakota.

The new Farmers Union Insurance Center, an addition to the Scheels Arena in Fargo, North Dakota, includes an ice rink with stadium seating for just under 600, locker room space, and an additional event space. Youth hockey will be the primary users of the facility.

We're doing our part. This newsletter is printed on environmentally-friendly paper.
